ENABLING SAFE ENVIRONMENTS

EQUIPMENT SAFETY CHECKLIST

FEBRUARY, 2023

INTRODUCTION

If you are up to date with all checks and feel certain that everything is working safely and goes beyond compliance, tick "Safe". If you are uncertain or need some advice, tick "need support"

Return your checklist to enquires@ligtas.co.uk, and one of our consultants will call you to discuss any areas you need support.

You can't keep people safe by simply ticking a box

EQUIPMENT SAFETY CHECKLIST

ITEM	SAFE	NEED SUPPORT
Fire detection and alarm systems, including smoke detectors, heat detectors, and fire alarms.		
Fire suppression systems, including fire extinguishers, fire hose reels, and sprinkler systems.		
Emergency lighting, including escape route lighting and standby lighting.		
Automatic opening vents (AOVs): designed to create smoke-free escape routes.		
Fire doors: designed to prevent the spread of fire and smoke.		
Smoke control systems: designed to manage the spread of smoke within the building.		

EQUIPMENT SAFETY CHECKLIST

ITEM	SAFE	NEED SUPPORT
HVAC Systems: designed to move air, heating or cooling an indoor space in the process.		
Lifts, which are required to have an emergency power supply and a firefighting mode.		
Electrical systems, including wiring, switchgear, and distribution boards.		
Automatic opening vents (AOVs): designed to create smoke-free escape routes.		
CCTV and access control systems.		
Gas systems, including boilers, heaters, and pipework.		

EQUIPMENT SAFETY CHECKLIST

ITEM	SAFE	NEED SUPPORT
Water systems, including pumps, tanks, and sprinkler systems.		
Plumbing and sanitation (prevention of Legionella).		
Stairwells, fire escapes, and external access points to ensure that they are safe and accessible in an emergency.		
Automatic opening vents (AOVs): designed to create smoke-free escape routes.		
Have you ensured that any contractors or subcontractors working in the building know the maintenance and testing requirements and comply with them?
